**Congratulations to President Trump and Vice President JD Vance
on their inauguration January 20!**

A Message from NYSFRW President, Trisha Turner

Welcome to our January 2025 Newsletter!

It was an incredible honor to represent the New York State Federation of Republican Women at the inauguration of Donald J. Trump as the 47th President of the United States.

As President Trump took the oath of office, I was proud of the hard work, dedication, and faith of everyone who worked on his campaign.

The day was bitterly cold with blocked streets and last-minute changes that prevented many from using their tickets when the event was moved indoors. Despite these challenges, Republicans proved their resilience celebrating this historic moment and the significant redirection of our country alongside legislators and fellow attendees.

President Trump wasted no time fulfilling his campaign promises, signing executive orders and taking decisive action, including measures to secure the border. Every contribution—big or small—played a critical role in this campaign’s success, and I am proud to represent our shared values, vision, and hope for America.

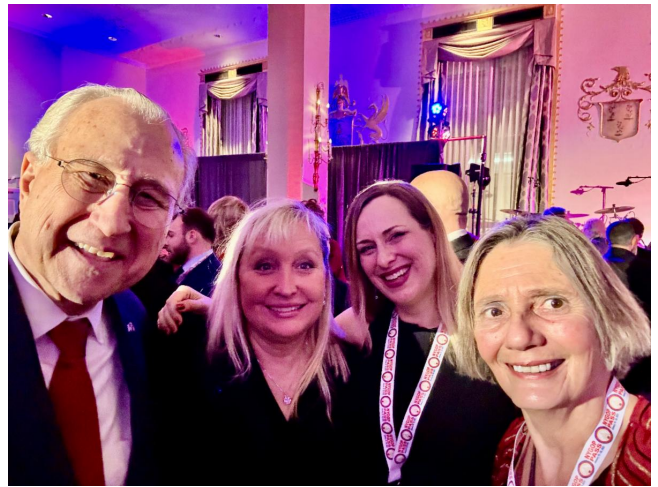

I hope you enjoy the inauguration photos included in this newsletter. Our work is far from over! We remain focused on electing Republican candidates and reclaiming the governor’s seat. I look forward to

working together as we strive to bring New York State back and make it great again!

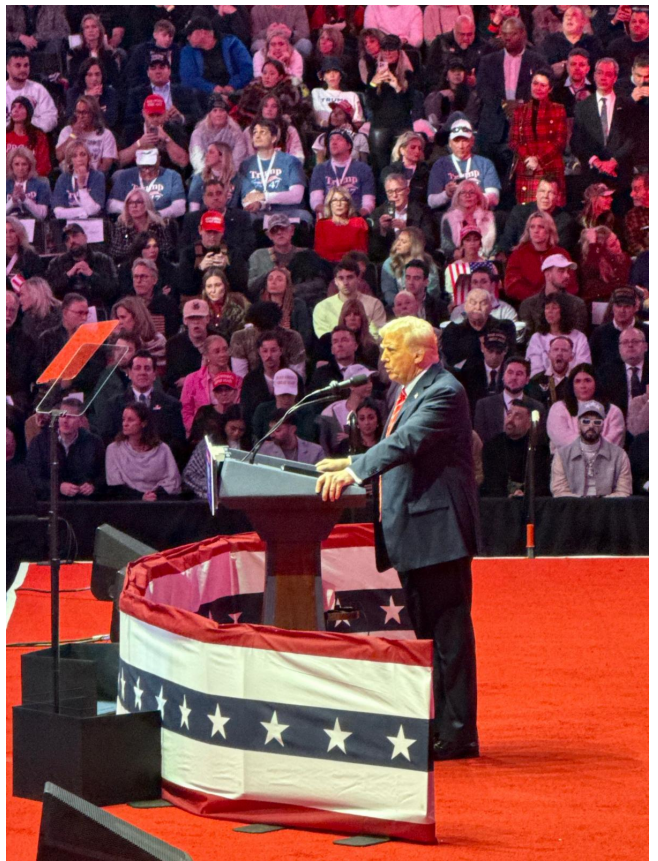

For Liberty and with Gratitude,

Trisha Turner
